#Shogunzermatt

Japanese & Sushi — Restaurant —

**WE INVITE YOU TO EXPERIENCE THE ART
AND BEAUTY OF JAPANESE CUISINE.**

Shoguns were hereditary military leaders of Japan who were appointed by the emperor and consequently ruled the country through their feudal power. Their rule lasted from 1192 until 1868.

Shoguns worked closely with other classes in Japanese society such as civil servants and daimyo (wealthy landowners). They administered taxes and trade and worked with samurai, a warrior class who were themselves usually employed by the daimyo.

Japan is a land known for its rich cultural heritage, and nowhere is this more evident than in its food.

Our chefs have spent years perfecting their craft, blending traditional techniques with modern flavours to create a unique and unforgettable dining experience.
