Japanese & Sushi — Restaurant —

**WE INVITE YOU TO EXPERIENCE THE ART
AND BEAUTY OF JAPANESE CUISINE.**

**Shoguns were hereditary military leaders of Japan
who were appointed by the emperor and
consequently ruled the country through their
feudal power. Their rule lasted from 1192 until 1868.**

Shoguns worked closely with other classes in Japanese
society such as civil servants and daimyo
(wealthy landowners). They administered taxes and trade
and worked with samurai, a warrior class who were
themselves usually employed by the daimyo.

Japan is a land known for its rich cultural heritage,
and nowhere is this more evident than in its food.

Our chefs have spent years perfecting their craft, blending
traditional techniques with modern flavours to create
a unique and unforgettable dining experience.
